- SPARES

Thanks to the rear induction motor with belt drive this model boasts a high cutting capacity. Ideal for cutting wood, plastic and aluminium section bars.

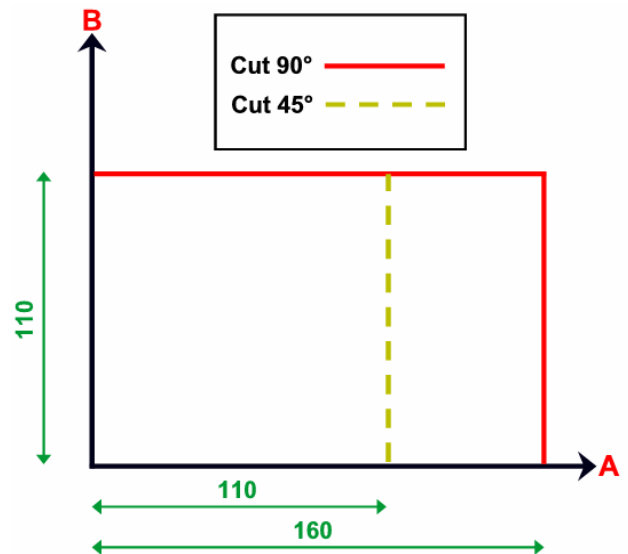

The FC 350 RAP model is provided with a work surface and revolving table in ground cast aluminium setting it at the top of its category thanks to its light-weight and handiness.

Provided with cut pre-selection system at 90° - 15° - 22°30' - 30° - 45° that is adjustable also over the intermediary angles using the lever.

New blade safety guard locking system that is operated using the lever situated at the side of the handle: prevents the blade from being released accidentally, ensuring total operator safety even when the machine is running.

Provided with electro-mechanical motor brake which is automatically triggered when the switch is released or if the power supply should be disconnected, stopping the blade within 10 seconds.

TECHNICAL CHARACTERISTICS	FC300 RAP
Blade Dimensions	Ø 350 x 3,2 x 20 mm - Z 108
Cutting Capacity at 90°	b x h 160 x 110
Cutting Capacity at 45°	b x h 110 x 110
No-Load Speed	3000/rpm
Single-Phase Motor (230V - 50Hz)	1700W - 2,3 HP
Three-Phase Motor (400V - 50Hz)	2800 W - 3,8 HP
Weight	45Kg
Single Phase Code	801518.00
Three Phase Code	801518.00
